

DEPARTMENT OF COMPUTER SCIENCE

Title: HCNA networking study guide
Author: Huawei Technologies Co.
Publisher: Springer, 2016
Subject: Computer networks. Operating systems (Computers). Computer architecture.
DDC/Location: 004.6 H431H

This book is a study guide for Huawei (HCNA) certification. It has been written to help readers understand the principles of network technologies. It covers topics including network fundamentals, Ethernet, various protocols such as those used in routing, and Huawei's own VRP operating system—all essential aspects of HCNA certification. Presenting routing and switching basics in depth, it is a valuable resource for information and communications technology (ICT) practitioners, university students and network technology fans.
