ACKNOWLEDGMENT

I would like to thank Allah, the Almighty, to have provided me the ability to conduct this research and to complete it. I would also like to pay gratitude to my instructor Dr. Liaquat Ali, who have supported me from the beginning. I could not have achieved this without the guidance of my supervisor. Lastly, I would like to thank my peers who motivated me throughout the whole process.

ABSTRACT

Purpose: The primary and basic aim of this study is to measure the impact of CSR on the financial performance of manufacturing concerns in Pakistan. This helped in finding the fact that whether CSR activities are presenting negative or positive impact on the manufacturing businesses of Pakistan.

Methodology/sample: In order to conduct this research, quantitative and secondary research method has been selected with the help of annual statements of eight manufacturing companies that are listed in Karachi stock exchange. The time span of 2014 to 2019 is considered to carry out the work on this research. Convenience sampling is used as a sampling technique to conduct this research. Hausman test is used as cross sectional approach in order to get results. Cross section effect has also been measured in this study.

Findings: The results of the study conclude that income tax and accounts payable turnover has a negative impact on ROA. Whereas, the impact of salaries, dividend per share, interest coverage and Debt to asset is positive on ROA. Hence, it can be said that income tax and APT is reflecting bad influence on the financial performance of manufacturing concerns of Pakistan.

Practical implications: It is suggested for both the government and organizations to focus on the implementation of CSR activities in order to ensure wellbeing and betterment of the society. Effective policies from government related to CSR activities can be helpful for the society. It is certain that appropriate policies related to CSR will be mutually helpful for the performance of organizations and wellbeing of the society.

Keywords: Accounts Payable Turnover (APT), Dividend per Share (DPS), Corporate Financial Performance (CFP), Return on Assets (ROA), Corporate Social Responsibility (CSR).

Table of Contents

Chapter 1: Introduction	9
1.1 Introduction.....	9
1.2 Background.....	10
1.3 Problem Statement.....	10
1.4 Research Objectives.....	14
1.5 Research Questions.....	14
1.6 Significance of the Study.....	15
1.7 Scope of the Research.....	16
1.8 Organization of the Thesis.....	16
Chapter 2: Review of Literature.....	18
2.1 The Concept of Corporate Social Responsibility.....	18
2.2 Performance of Manufacturing Concerns and CSR.....	19
2.3 Empirical Study	20
2.4 Research Hypotheses	20
2.5 Summary of Literature Review.....	27
2.6 Conceptual Framework.....	28
Chapter 3: Research Methodology.....	29
3.1 Research Approach and Type	29
3.2 Research Design.....	31
3.3 Research Population.....	31
3.4 Sample Size and Sampling Technique.....	32
3.5 Research Instrument.....	33
3.6 Data Collection	33
3.7 Data Analysis Model.....	34
Chapter 4: Data Analysis	35
4.1 Results.....	35
4.1.1 Descriptive Statistic	35
4.2 Hausman Test.....	36
4.3 Cross-section effects	37
Chapter 5: Discussion	38
5.1 Discussion.....	
Chapter 6: Recommendations and Conclusion	41
6.1 Recommendations.....	41

6.2 Limitations of the Research	42
6.3 Future Research	42
6.4 Conclusion	43
References.....	44
