Abstract

Smart attendance system is an android base application. This application is providing a platform to the teachers to mark the attendance of the students in less time. The application is providing access to three main stakeholders: admin, faculty and student. Admin can manage courses and assign courses to faculty and student. Faculty can generate a QR code through which attendance will be marked and they can view the attendance summary. Students will be able to scan the generated QR code if it is valid. Then the final step of authentication is IRIS scanning.

This application is developed for the Higher Educational Institutes as teacher and students need to have this application installed in their Mobile phones.

Contents

Chapter 1 Introduction	7
1.1. Objective	7
1.2. Problem Description	7
1.3. Scope	8
1.4. Methodology	8
1.5. Flowchart Diagram	9
1.5.1. Faculty module	9
1.5.2. Student module	10
1.5.3. Admin module	11
Chapter 2 Literature Review	12
2.1. Background	12
2.2. Existing System	12
2.2.1. Working of Existing System	12
2.3. Our Proposed System	12
Chapter 3 Requirement Specifications	13
3.1. Proposed system	13
3.2. Functional requirements	13
3.3. Non-Functional Requirements	13
3.4. Use Cases	14
3.4.1. Use case of the whole system	14
Chapter 4 System Design	19
4.1. System Architecture	19
4.2. Sequence Diagrams	20
4.3. Class Diagram	25
4.4. Graphical User Interface Design	26
4.4.1. Sign In interface	26
4.4.2. Registration	27
4.4.3. Student home screen	28
4.4.4. QR code generation	29
4.4.5. QR code scanning	30
4.4.6. Student Profile information	31
Chapter 5 System Implementation	32
5.1 System Architecture	32
5.1.1. Presentation Layer	32
5.1.2. Application Layer	32

5.1.3. Database Layer.....	32
5.2. Logical Layer.....	32
5.3. Project Features	32
5.3.1. Registration	32
5.3.2. Login.....	33
5.3.4. Logout	33
5.3.5. QR Code generator	34
5.3.6. QR Code Scanner	34
5.3.7. Assign courses.....	35
5.3.8. Add courses.....	35
5.3.9. Update profile information	36
5.3.10. Reset Password.....	36
Chapter 6 System Testing and Evaluation	38
6.1. Unit Testing	38
6.2. Integration Testing.....	38
6.3. The Acceptance Testing.....	38
6.4. GUI Testing	38
6.5. Usability Testing.....	38
6.6. Installation Testing	38
6.7. Load Testing.....	38
6.8. Exception Handling	38
6.5.6. Test cases.....	39
Conclusion	43
References.....	44
