ACKNOWLEDGEMENT

Firstly, I would like to express my sincere gratitude to my advisor Mr. Tanveer Taj for the continuous support of my MBA study and related research, for his patience, motivation, and immense knowledge. His guidance helped me in all the time of research and writing of this thesis. I could not have imagined having a better advisor and mentor for my MBA study.

I am using this opportunity to express my gratitude to everyone who supported me throughout the course of this MBA project. I am thankful for their aspiring guidance, invaluable constructive criticism and friendly advice during the project work. I am sincerely grateful to them for sharing their truthful and illuminating views on a number of issues related to the project.

Abstract

This research studied the impact/ relationship of transit trade agreement of landlocked Afghanistan which is fully surrounded by land and don't have direct access the sea ports and to the international market, as well as it is impact on Pakistan, which provided by direct access to the central Asia. The research is conducted on the data of Afghanistan Pakistan Transit Trade Agreement. The data in this research is gathered from Afghanistan's ministry of commerce and Pakistan's ministry of commerce, the research show the impact of transit trade on both countries especially, it is about Afghanistan because Afghanistan is a land surrounded country which mostly effected economic development of the country. The data used for this research is from 2001-2014. No variables are used for this research, because it is comparative study to compare the ATTA and APTTA agreement, which exactly show the APTTA transit trade agreement on both the country.
