## **ABSTRACT**

Pakistan is a Muslim country built as a trustee of world's most fast growing religion Islam. According to Islam there are certain duties that are obligatory on every Muslim to be fulfilled. One of those duties is the payment of Zakat i.e. the paying of a certain percentage of wealth on the material and financial wealth owned by a Muslim which aims to eradicate poverty but unfortunately Pakistan is facing the worst economic as well as moral crisis right now.

The aim of this project was to come up with in-depth analysis of variables that are affecting the zakat disbursement process. A through survey was conducted by floating the questionnaire, conducting interviews, analyzing case studies to get the results and support our research by gathered facts and figures.

This project will be a contribution towards identifying the black holes in zakat distribution process by qualitative and quantitative methods and to develop a framework which can help zakat distribution process to enhance performance through constructive new methods, procedures, human resource policies and implementation.

## **ACKNOWLEDGEMENT**

Praise is to Allah, the most merciful, the most beneficent, who has guided us to the right path and we pray to him to make our way and polish our heart to know, feel and say the truth.

After acknowledging the blessings of Allah Almighty in helping us in our efforts, we would like to thank all of the other helping hands who were with us in making this report a possibility and specially our beloved parents who are always very inspirational and supportive throughout our academic career.

We would like to thank our supervisor Mr. Syed Atif Hussain who in spite of his busy schedule gave us the opportunity to carry out this knowledge full study and His kind help, guidance and extra consideration helped us in completing our project.

Very special thanks to everyone who participated in our study and gave us time and valuable information which un-doubtly helped us in drawing a better analysis.

## **DEDICATION**

This whole effort is dedicated to our beloved family, worthy teachers and leg pulling friends who encouraged us to prove our talent and God gifted skills to complete this project along with a helping bond for our professional careers.
