(Who have always been my inspiration)

Abstract.

The project 'Automation of Student Information and Library System' has been developed for Ora-tech Systems(PVT)Ltd.

The software will be available to aid in their management of all their Student Registration, Library books, accounts and certificate records. This new and improve system is required to serve the student as well as the employees of the Ora-tech Systems. This software will minimize the flaws of the existing manual system. The alacrity and precision of the developed project has benefited the overall working of the procedure .The error control has been greatly abridged by plummeting redundancy.

The new computerized system will cut down overall costs and thus would be expenditure, tempo, and accurateness and protection.

Acknowledgement :

All praises to the Allah Almighty, the most merciful and the gracious without His help and blessings .I was unable to complete the project .This effort would not have been materialized into reality had there not been the contribution of so many people.

I would like to pay my thanks to my teachers and oratech systems employees for their valuable contributions, which enabled me to be part of Computer Sciences world.

Many words of thanks for my supervisor **Dr.M.A.khan** and also like to pay my thanks to **Asim Saleem** (Project supervisor at Ora-tech Systems). Who provided me material and valuable supervision, constant encouragement, and personal involvement enabled me to complete this project.

Finally I would like to pay my deep gratitude to my loving parents, my sisters, my brothers and my friends specially **Hafiz Misbah** and **Asher Naveed** for their good wishes and encouragement, without which I would have been unable to accomplish anything worthwhile.

Shafaq Irshad
