A report is submitted to the department of Computer Science,
Bahria University, Islamabad.

In partial fulfillment of requirement for the degree of **MSE.**

Department of Computer Sciences
Bahria University, Islamabad.

Certificate

We accept the work contained in this report as confirming to the required standard for the partial fulfillment of the degree of MSc in the subject of Computer Sciences.

ACKNOWLEDGEMENT

Firstly I acknowledge my parents whose prayers helped me to complete this project.

I am very thankful to my supervisor Mr. Mahmood Anwar Khan, who provided me full friendly environment for the completion of this project. He gave me own valuable time for solving the problems in my project. I am greatly thankful to my supervisor.

I also want to thanks my brother who helped me to solve different problems in my project.

I appreciate the help of my teachers who worked for me to check the problems and mistakes in making the documentation. All the teachers were present when I needed them.

Above all of this, at the end I also thankful to **GOD** the Almighty without his Will and Help I could not have succeeded in my ambition.

M. Sajid Javaid

DEDICATION

To my dearest parents and my elder brothers for their moral and financial support, and to my respectable teachers who motivated, supported and encouraged me in my studies and helped me in my project and the moral support in the completion of my final project.

At the end I must dedicate to my one of special and beloved **friend** who gave me moral support and courage for the completion of my project.

PROJECT BREIF

PROJECT TITLE : ACCOUNTS & PAYROLL. SYSTEM.

OBJECTIVE :

Before designing a computer-based system, it is essential and helpful that the computer based system should satisfy the objectives. In addition the relative importance of each objective should also be established.

UNDER TAKEN BY : Muhammad Sajid Javaid

SUPERVISOR : Mr. Dr. Mahmood Anwar Khan

DEVELOPMENT TOOLS USED : ORACLE 8

OPERATING ENVIRONMENT : WIN 98.

HARDWARE PLATFORM : Pentium II 450 MHz (Compatible)

ABSTRACT

In modern age every business is turning towards computerized system. In this project the intended software is developed to fulfill the requirements. This project is about the computerization system. Data Base files have been prepared for the generation of the reports.

The scope of the project means that how this project will meet in market as the computer field is growing throughout the world of computer. The project helps the users to maintain the system functionality proper. The project is chooses according to the market requirement. As the user requirement the software works on any Operating System of the Microsoft.

This Software includes a menu system. There are many options for handling the software. This project also contains a User's Guide section. The main objective of this Software is to attain super output on Screen as well as on Printer.

Chapter No 2. REQUIREMENTS ANALYSIS :

2.1 Introduction.	3
2.2 Problem Analysis.	3
2.2.1 Existing System.	3
2.2.1.1 Feasibility Study.	3
2.2.1.2 Financial Feasibility.	4
2.2.1.3 Technical Feasibility.	4
2.2.1.4 Operational Feasibility.	4
2.2.2 Detail Study Phase.	4
2.2.3 Purchase Procedure.	5
2.2.4 Issue Procedure.	5
2.2.5 Maintenance Procedure.	5
2.3 Problem In The Existing System.	5
2.4 Problem In The Existing System.	6

Chapter No 3 . PROPOSED SYSTEM :

3.1 Project Objective.	7
3.2 Main Features Of The Proposed System.	7
3.2.1 Efficiency And Effectiveness.	7

3.2.2 Accuracy. 7
3.2.3 User Friendly. 7
3.2.4 Minimum Redundancy. 8
3.2.5 Simple Data Input Facility. 8
3.2.6 Data Security & Integrity. 8
3.2.7 Buttons. 8
3.2.8 Reports Generation. 8
