## CERTIFICATE

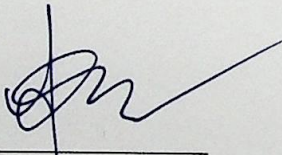

We accept the work contained in this report as confirming to the required standard for the partial fulfillment of the degree of **MCS**.

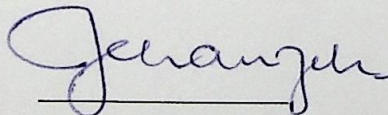

Mr. Fazal Wahab  
Head of Department

Mr. Zarrar Javaid  
Supervisor

Mr. Fazal Wahab  
Internal Examiner

Mr. Jahanzeb Ahmed  
External Examiner

## ACKNOWLEDGEMENTS

### DEDICATIONS

I dedicate  
this project  
to my  
**Loving Parents and all Teachers in my whole educational  
career**  
whose prays  
are  
**always with me**  
and  
**my success**  
is only due to them

## **ACKNOWLEDGEMENTS**

First of all I am grateful to **Almighty Allah**. Lord of Creations, of our lives and of everything in the Universe and **His Holy Prophet Muhammad (S.A.W)**, Whose blessings enabled us to perceive and pursuit higher ideas of life, who has given us the courage insight and knowledge to complete this project.

I would like to acknowledge the help of persons who helped me lot in my project and in my educational career that is “Mr. Zarrar Javaid” for supervising me in this project and his lots of encouragement, his devotions and his great advices during this project and as well as in my educational stay during MCS degree.

I would also like to thank “Mr. Saleem Ahmad –Deputy Chief (Computer section) OGDCL” and “Mr. Fazal Imdad – Senior Accountant (OGDCL) for helping me in the Project. I would also like to mention the name of “Mr. Zarrar Javaid” again whose guidance especially in documentation skills give me lot of knowledge and power in developing the professional documents in my professional as well as student life.

Finally, I would like to acknowledge Bahria University for giving a professional sense to me and forwarding me to the professional and practical life with full strength. I also acknowledge here that it is the university which has opened new horizons and universe for me to conquer and to seek knowledge, applying my abilities and skills.

**Moazzam Kamran Fayyaz**

## TABLE OF CONTENTS

**ABSTRACT**

With the passage of time, progress of science by leaps of bounds in the life of human being is shaping tuning and turning towards luxury. Human being is busy to mold the life towards the ease not only in his home but also in the offices. With the evolution of computer science the concept of Databases took birth. Now modern trend of Databases is setting. Its growth in Organization to form their own Databases to make work easy, fast and shareable with help of computers. On the bases of the Database, an administrator is the key person who looks after the Database that's why the idea of administrator is stronger then the previous role he performed, which proposed that each activity performed in the Database should be in his awareness and he could perform his tasks accordingly i-e every activity should be monitored, performed and processed by the administrator. I tried to work in this field and named this software as "Accounting system of Pension Department of OGDCL (Oil & Gas Development Company Limited)".

**Moazzam Kamran Fayyaz**

## TABLE OF CONTENTS

|  |  |           |
|--|--|-----------|
|  | <b>Chapter 1 Introduction</b>                            | <b>11</b> |
|  | 1.1 Organization overview                                | 12        |
|  | 1.2 Project Background                                   | 13        |
|  | 1.3 Project overview                                     | 14        |
|  | <b>Chapter 2 System Analysis</b>                         | <b>15</b> |
|  | 2.1 Operations/Functions of existing System              | 16        |
|  | 2.2 Problems in Existing System                          | 17        |
|  | 2.3 Analysis Techniques                                  | 18        |
|  | 2.4 Process Modeling                                     | 19        |
|  | 2.4.1 Context Diagram                                    | 20        |
|  | 2.4.2 Data Flow Diagram (DFD)                            | 21        |
|  | 2.5 Entity-relationship diagram (E-R Diagram)            | 22        |
|  | <b>Chapter 3 Proposed Systems</b>                        | <b>23</b> |
|  | 3.1 Major Objectives of New system                       | 24        |
|  | 3.2 Complete review of proposed system                   | 28        |
|  | <b>Chapter 4 Logical Design of System</b>                | <b>32</b> |
|  | 4.1 Relations  | 33        |
|  | <b>Chapter 5 Physical Design of system</b>               | <b>42</b> |
|  | 5.1 Description of Tables                                | 43        |
|  | 5.2 Tools and Technologies used in System                | 48        |
|  | <b>Chapter 6 Implementation &amp; Future Enhancement</b> | <b>50</b> |
|  | 6.1 System Implementation                                | 51        |
|  | 6.2 Testing  | 51        |
|  | 6.1.1 Unit testing                                       | 51        |
|  | 6.1.2 Integration testing                                | 51        |
|  | 6.1.3 System testing                                     | 51        |
|  | 6.1.4 Accepting Testing                                  | 52        |
|  | 6.1.5 Hardware Testing                                   | 52        |
|  | 6.1.6 Software Platform Testing                          | 52        |

|       |                               |    |
|-------|-------------------------------|----|
| 6.3   | Installation                  | 53 |
