MBA Thesis 2nd Half-Semester Progress Report & Thesis Approval Statement

Supervisor – Student Meeting Record

S#	Date	Place of Meeting	Topic Discussed	Signature of Student
1	3 Jan 21	BURC	Thesis Approval	
2	06 Jan 21	BURC	Read map and verifiable sheets	
3	22 Jan 21	BURC	Thesis Check & submitted to supervisor	

APPROVAL FOR EXAMINATION

Candidate's Name: M. Zahid Ghaffar

Registration No.: 45648

Thesis Title:

I hereby certify that the above candidate's thesis has been completed to my satisfaction and, to my belief, its standard is appropriate for submission for examination. I have also conducted a plagiarism test of this thesis using HEC prescribed software and found a similarity index at ___ that is within the permissible limit set by the HEC for the MBA thesis. I have also found the thesis in a format recognized by the Department of Business Decision.

Supervisor's Signature: Salman

Date: 18-3-22

Supervisor's Name: SALMAN A. KHAN

HoD's Signature: Sameerah Riaz

Date: _____

Acknowledgment

With this thesis, I would first like to extend my utmost gratitude to my thesis advisor Prof Salman Ahmed Khan for his immense support and guidance at every step. He was readily available whenever I ran into trouble and steered this thesis in the right direction. I am also grateful to my parents for their constant support and for keeping me motivated; to my friends, who helped me a great deal in writing this thesis.

Abstract:

This research was conducted to decide the execution effect of e-procurement adoption in Indonesian fabricating companies. This ponder comprises of four factors: beat management support, data quality, execution of e-procurement, and company execution. Pilot testing surveys were utilized to test whether the respondents caught on to the questions given by the analyst. After conducting the pilot test, the ultimate survey was disseminated to respondents. The pilot test comes about and the ultimate survey was analyzed utilizing Factual Bundle for Social Science (SPSS) adaptation 21 and SmartPLS v3.0 program to decide the relationship between variables.

The comes about show that top management bolster features a critical impact on e-procurement execution. Other results show that data quality incorporates a noteworthy impact on e-procurement usage, whereas eprocurement usage encompasses a critical impact on company execution. From the discoveries of this article, suggestions from an administration point of view are examined to extend management awareness in embracing electronic procurement.

Keywords: E-procurement, supply chain management, supply chain performance, Performance efficiency
