## **ACKNOWLEDGEMENTS**

For the contribution of successful achievement of this project we are grateful for everyone. We would like to express my gratitude to my research supervisor, Madam Sameena Javaid for her invaluable advice, guidance and his/her enormous patience throughout the development of the research.

In addition, we would also like to express my gratitude to our loving parent and friends who had helped and given me encouragement.

# REAL TIME SIGN LANGUAGE RECOGNITION SYSTEM USING NN

## ABSTRACT

The mode of communication between two people is language. When talking about the deaf and dumb people they use sign language in which they make some sort of gestures to convey their messages but what if they are communicating with the one who don't have any known how of sign language. So to remove the communication gap between deaf/dumb and the common people we have planned to design a real time sign language recognition system.

We have planned to implement neural networks (NNs) with MATLAB but we also tried to implement other techniques like SVM and KNN. This sign language recognition system will work on real time then by take the images from our dataset or from real time videos after that machine is trained on and then convey the Edges count. Then one module is to recognize signs.

# Table of Contents

<b>1. INTRODUCTION</b> .....	9
<b>1.1 Background of Project:</b> .....	9
<b>1.2 Purpose of Project:</b> .....	10
<b>1.3 Problem of Project:</b> .....	10
<b>1.4 Population Chart:</b> .....	10
<b>1.5 Objectives and Aims:</b> .....	11
<b>1.6 Scope of Project:</b> .....	11
<b>2. LITERATURE REVIEW</b> .....	12
<b>3. DESIGN AND METHODOLOGY</b> .....	20
<b>3.1 Software Methodology:</b> .....	20
<b>3.2 Main Methodology:</b> .....	21
<b>3.2.1 NEURAL NETWORK:</b> .....	21
<b>3.2.2 BENEFITS OF USING NN:</b> .....	22
<b>3.2.3 WORKING OF NNs:</b> .....	22
<b>3.2.3.2 TRAINING:</b> .....	23
<b>3.3.1.2 Hyper planes and Support Vectors</b> .....	24
<b>3.3.2 KNN</b> .....	25
<b>4. IMPLEMENTATION</b> .....	27
<b>4.1 TRAINING:</b> .....	27
<b>4.2 TESTING:</b> .....	28
<b>4.2.1 PRINICPLE COMPONENT ANALYSIS:</b> .....	29
<b>4.2.2 FISHER LINEAR DETERMINANT:</b> .....	30
<b>4.3 INTERFACE DESIGN:</b> .....	31
<b>5. SOURCE CODE</b> .....	37
<b>6. PROJECT SCHEDULE</b> .....	50
<b>6.1 WORKFLOW:</b> .....	50
<b>6.2 GENERAL GANTT CHART</b> .....	51
<b>7. CONCLUSION AND RECOMMENDATIONS</b> .....	53
