## ACKNOWLEDGMENT

Firstly, we are thankful to Allah SWT, who is the best of the planners. I would like to express my sincere gratitude to several individuals for supporting me throughout my Graduate study. First, I wish to express my honorable appreciation to my supervisor, Assistant Professor Dr. Muhammad Shakeel,, for his enthusiasm, patience, insightful comments, helpful information, practical advices, online help and unceasing ideas that have helped me tremendously at all times in my research and writing of this project. Dr. Rao Muhammad Rashid, our project Co-Ordinator, as well as our respected Dean and H.O.D, who have given us this wonderful opportunity to work on the project "Improving the Effectiveness of Accounts System/Accounting Information System in Production Industries of Pakistan." This was also aided by the extensive research we conducted, as a result of which we discovered many new things that will be useful in our practical and professional lives. We would also like to thank our parents for their assistance and support during these difficult times, which motivated us greatly in completing this project within the time constraints. We would like to thank everyone for their direct and indirect assistance in completing our report.

## **ABSTRACT**

The aim of this project is to examine the ways of improving the effectiveness of accounts system in production industries of Pakistan. Currently, the world and human life has been transformed from information age to knowledge age and knowledge has been recognized as the most valuable asset. So, on many factors this study wishes to examine the effectiveness of accounting system in the production industries of Pakistan. It has examined the effects of accounting system on the allocation of resources in the production industries of Pakistan. It has also let us know the role of effective accounting system in fraud detection and prevention and the relationship between accounting system and the development of the industries. This study has shown the investigation done on the factors affecting effective accounting system in the production industries by the software namely EVIEWS AND SPSS, and to offer some solutions to the stated problems.

**Keywords:** AIS Effectiveness, fraud detection, resource allocation, accounting system.
