**A Project Submitted In Partial Fulfillment Of The Requirements For A
Degree Of Bachelors Of Science In Accounting And Finance,
Administration Sciences, Bahria University Karachi Campus**

SPRING 2023

Project Approval Statement

APPROVAL FOR EXAMINATION

Candidates' Name: Ali Muhammad Enrolment No: 02-112192-036 Candidates'

Name: Shahzaib Khalid Enrolment No: 02-112192-070

Project/Thesis Title: FR Administration A Dilemma on FP of Banks in Developing Countries (A case study of Pakistan Commercial Banks)

I hereby certify that the above candidates' thesis/project has been completed to my satisfaction and, to my belief, its standard appropriate for submission for examination. I have also conducted a plagiarism test of this thesis using HEC prescribed software and found a similarity index at 18% that is within the permissible limit set by the HEC for thesis/ project MBA/BBA/BS (A&F), BS (Economics). I have also found the thesis/project in a format recognized by the department of administration sciences.

ACKNOWLEDGMENT

First, we are thankful to Allah, who is the holder of our breaths, without His orders nothing is possible. In completing our project, we took help and guidelines from some respected people, who deserve our appreciation and we are thankful to them. We would like to show our deepest gratitude to Professor S M Shoaib Wasim, Course Supervisor, and Bahria University for giving us helpful guidelines for this project through numerous online consultations. We are thankful to all those who have directly and indirectly provided us with guidance in completing this report. Our project Coordinator Ma'am Fazeelat Masood as well as our Dean and our H.O.D who gave us this golden opportunity to do this project on the topic "FR ADMINISTRATION PROCEDURE A DILEMMA ON FP OF BANKS IN DEVELOPING COUNTRIES (A CASE STUDY OF PAKISTAN COMMERCIAL BANKS)". This has also helped us by the extensive research we undertook due to which we explored many more new things, which will be helpful in our practical and work life. We would also like to thank our classmates who gave valuable comments and suggestions on this proposal, which inspired us to improve our report. We would also like to thank our parents who helped and supported us during these hard times and motivated us a lot in finalizing this project within the limited period. We thank all the people for their direct and indirect help due to which we were able to complete our report.

ABSTRACT

This study suggests examining the influence of CR (CR), MR (market risk) and LR (liquidity risk) administration on the performance of commercial banks in Pakistan. The research proposal for this study was based on a comprehensive analysis of secondary data obtained from various sources, including SBP publications on banking sector surveys, official website and the KSE. The study utilizes pooled regression analysis to assess the influence of CR, MR and LR administration on two performance indicators. The findings of this study indicate an inverse relationship between CR, market risk, liquidity risk administration and bank performance. The analysis of total return on assets (ROA) reveals that variable such as inflation in Pakistan, interest rate in Pakistan (IR), total debt to total asset ratio (TDTA), total debt to total equity ratio (TDTE), total equity to total assets (TETA), and loan to deposit ratio (LAR) significantly affect ROA. Regarding return on equity (ROE), the DAR variable exhibits negative insignificance, while the DER and EAR variables demonstrate a positive influence. The LAR, INF and INT variables have an insignificant influence on ROE. Furthermore, the LAR and INT variables have a negative influence, while the INF variable has a positive influence on the dependent variable in this model.
