ACKNOWLEDGEMENT

We would like to thank everyone who had contributed to the successful completion of this project. We would like to express our gratitude to our research supervisor, Mr M. Iqbal for his invaluable advice, guidance, and his enormous patience throughout the development of the research.

In addition, we would also like to express our gratitude to our loving parent and friends who had helped and given me encouragement.

LEARNING MANAGEMENT SYSTEM FOR SCHOOLS OF SINDH

ABSTRACT

Education is the basic and key factor growth and prosperity of any country. It is a primary requirement for any human to develop sense of moral values, ethics, and way of living. With the advancements in every sector there is a need for advancement in education sector also. To obtain the best we need to enhance the process of learning and evolve with time. Keeping in view the need of time and advancements there is a need for a system to communicate and manage the process of teaching and learning. A platform that will allow the teacher and admin to administrate the classroom and the individuals. This platform will ease the learning process for students and teachers. Due to the prevailing covid conditions, routine classes are disturbed and cannot commence due to the outbreak and social distancing, hence it is a must requirement nowadays. To continue the process of learning there is a dire requirement for a learning management system. The motive is to develop a system for educational institutes that will keep the record of every student. The portal will enable the teacher and administration staff to keep an eye on the student's performance. The lectures and assignments will be uploaded on the platform and evaluated accordingly. It can also be used to conduct online examination. The plan is to virtualize the classroom ambiance and carry an uninterrupted learning process.
