ACKNOWLEDGMENTS

First of all we are thankful to Allah Almighty for helping us in every difficulty we have faced until now in this project. We would also like to thank our Project Coordinator Sir Usman Waheed for acknowledging the idea we came up with, accepting the idea and providing every bit of guidance whenever it was needed. Our special thanks goes out to our Project Supervisor Engr. M. Faisal who has supported us at every step, providing vital guidelines regarding the flow of the project and supervising our project from scratch in the best possible way.

ABSTRACT

Providing all sorts of audience whether lay-tech or low-tech to make their own websites, static websites as well as dynamic websites. Our product will enable them to make their websites just on clicks. Our product will be a desktop based application that will develop Php websites for the users. Our product will be very simple and effective at the same time as it is very easy to use for all type of audiences.
