Acknowledgments

We the students of Bahria University Karachi Campus (Software Engineering Department) who have made this Project “ ONLINE BOOK EXCHANGE SYSTEM ” (OBES) express our sincere praise and thanks to ALLAH (SWT) for his blessings which *He* showered on us throughout our lives, especially for this project work

Thanks to MR.MAJID KALEEM for guiding us to the right path whenever we stray away. He gave us support to help us remain within the standards and help us follow the rules and regulations of developing project.

Special Thanks to ENGR USMAN WAHEED for helping and guiding us in detail to select the project He also supported us by giving ideas about our project., He was always there for any assistance during the development of the project.

Our special Thanks to ENGR TAZEEN MUZAMMIL

She has given us the chance to work on this project. She enhanced our abilities and increased our knowledge about practical life. She not only gives us her precious time but also shared her valuable thoughts about the topic. The supervision and support that she gave truly help the progression and smoothness of the project. The co-operation is much indeed appreciated. She has also taught us moral lessons which will guide us in the walk of life.

We would like to pay great gratitude and high regards to our Final Year Project Supervisor and guide.

Abstract

The core intend of this project is the sale and substitution of the books which are not being used by students after their studies or a particular period of time. The compass of this Project is to make most of the used / new books so that the students can easily communicate for the particular book sale or exchange. The user can register and buy or sell books as required and maintain wish list etc. The user can view the books, search the books, rate the books, share book, suggest book and contact with the owner of the book if interested in buying. Websites similar to this are only present for a limited country or region which is a drawback for students and this step at our end will definitely help in reusing of the books used every day and none of the book will be a scrap anymore and could be used for substituting and selling with the help of this website.

Table of Content

ONLINE BOOK EXCHANGE SYSTEM	BSE	Fall Semester – 2012 i
.1. Introduction		2
1.1 Purpose:.....		2
1.2 Users:		2
1.3 Scope:.....		2
1.4 Functional Description:		3
2. Background and Literature Review		5
2.1 ChangoBooks:.....		5
2.2 PaperBackSwap:		5
2.3 ReaditSwapit:		6
3. Aim and Statement of Problem		8
3.1 Statement of Problem:		8
3.2 Aim of the Project:		8
4. Analysis and Design		10
5. Implementation		26
5.1 Book Upload:		26
5.2 User Registration:		27
5.3 Wish list:.....		28
5.4 Comment/Reviews:.....		29
5.5 Book Rating:		30
5.6 Email:		31
6. Testing		34
6.1 BLACKBOX TESTING		34
6.1.2 Test for “Login Form” function of the system:		37
6.1.2.1 Pre-Condition for this test case:.....		37
6.1.3 Test for “Sell Book Form” function of the system:		38
6.1.3.1 Pre-Condition for this test case:.....		38
7. Results		47
8. Discussion		49
9. Conclusions		51
10. Future work		53
11. References		55
12. Appendix		57
