

IMPACT OF INTELLECTUAL CAPITAL ON BANK'S STABILITY WITH MODERATING THE ROLE OF CORPORATE GOVERNANCE

BY

MAAZ ALI KHAN	67542
HASSAN ASKARI	67551
TAYYABA FATIMA	67554

A Project submitted to Department of Management Studies, Bahria Business School, Bahria University – Karachi Campus, in partial fulfillment of the requirement for BS A&F Degree

**BS (ACCOUNTING & FINANCE)
FALL-2023**

Bahria University Karachi Campus

APPROVAL FOR EXAMINATION

Candidate's Name: Maaz Ali Khan

Registration No.: 67542

Candidate's Name: Hassan Askari

Registration No.: 67551

Candidate's Name: Tayyaba Fatima

Registration No.: 67554

Project Title: Impact of intellectual capital on Bank's Stability Moderating the role of Corporate Governance

I hereby certify that the above candidate's thesis has been completed to my satisfaction and, to my belief, its standard is appropriate for submission for examination. I have also conducted plagiarism test of this thesis using HEC prescribed software and found similarity index at 13% that is within the permissible limit set by the HEC for the MBA/ BS (A&F)/ BS Economics thesis. I have also found the thesis in a format recognized by the Department of Management Sciences.

ACKNOWLEDGMENT

First, we are thankful to Allah, who is the holder of our breaths, without His orders nothing is possible. In completing our project, we took the help and guidelines of some respected people, who deserve our appreciation and we are thankful to all of them. We would like to express our sincere gratitude to Bahria University and our course supervisor for providing us with helpful guidelines for this project through multiple meetings. We express our gratitude to everyone who helped us accomplish this report by providing advice both directly and indirectly. Our project Co-Coordinator Fazeelat Masood along with our Dean and H.O.D., who provided us this great chance to work on this project on this topic. **“Impact of intellectual capital on Bank’s Stability Moderating the role of Corporate Governance”**. This has also benefited us in our extensive research, as they have allowed us to discover a great deal more fresh knowledge that will be useful in daily life and at work.

We would also like to thank our batch mates who gave us valuable comments and suggestions on this project which inspired us to improve our report. We would also like to thank our parents who helped and supported us during these hard times and motivated us a lot in concluding this project within the limited time frame. We thank all the people for their direct and indirect help due to which we were able to complete our report.

ABSTRACT:

The ambition of this report is to discuss the inherent factors of the banking system as well as the short-term and long-term effects of intellectual capital efficiency on bank stability in Pakistan. The VAIC model is used to measure the ICE, which is composed of three capitals: human, relational, and structural. The findings of the statistical panel regression support the hypothesis that higher Intellectual capital efficiency relates to improved bank stability and supports the resource-based theory. Other than that, research also reveals the long-term contribution of intellectual capital efficiency to bank stability. Further, the control variable CG index proxies such as bank measurement, bank age, board composition, and bank size demonstrate a favorable effect on bank Stability. The resource-based strategy can be applied to enhance intangible investments and create a long-lasting competitive advantage. Future assessment is anticipated to take into account the risk management approach to examine the association between IC efficiency and banks' stability.

Keywords: Intellectual capital, Intangible resource, Corporate Governance index, & Bank stability
