ACKNOWLEDGEMENTS

We would like to thank everyone who had contributed to the successful completion of this project. We would like to express my gratitude to my project supervisor, Malik M. Ali for his invaluable advice, guidance and his enormous patience throughout the development of the research.

In addition, we would also like to express our gratitude to our loving parents and friends who have helped and given us encouragement.

MULTI-SERVICE PLANNER

ABSTRACT

This report presents a groundbreaking project aimed at transforming the event planning industry through the introduction of a versatile multi-service planner app. The app revolutionizes the conventional approach to event planning by offering a unified platform for venue bookings, event planning, and related services, thereby enhancing the convenience and accessibility of the entire process. With a focus on saving both time and money for users, the app employs cutting-edge features to streamline event planning. It empowers users to effortlessly search for venues based on their preferred location, capacity, and amenities while providing a user-friendly interface for seamless selection. In a significant expansion, the app now includes event planning services such as photography, decorations, and catering, ensuring a holistic approach to event organization. Moreover, it empowers smaller, unique venues and service providers to compete with larger counterparts by presenting them as hidden gems within the platform. The primary project objective is to furnish users with a secure and trustworthy platform for making informed decisions about venue and service selection, granting access to authentic reviews and photos for each venue and service provider. Ultimately, the multi-service planner app aims to enable users to effortlessly plan and execute memorable events. The project culminates in a comprehensive and centralized platform meeting all event planning needs, equipping users with the resources to craft truly exceptional events. Recommendations for future development and conclusions are also included in the report.
