LEGAL ASSISTANCE APP

ACKNOWLEDGEMENTS

Our goal is to make legal information accessible to everyone, regardless of their background or financial situation. We aim to empower individuals to advocate for their rights and seek justice. The app covers various legal areas to provide assistance for a wide range of issues, ensuring a comprehensive understanding of the legal landscape. The step-by-step guides

We would like to thank everyone who had contributed to the successful completion of this project. We would like to express my gratitude to my project supervisor, MS. ASIA SAMREEN her invaluable advice, guidance, and her enormous patience throughout the development of the research.

In addition, we would also like to express our gratitude to our loving parents and friends who have helped and given us encouragement.

LEGAL ASSISTANCE APP

ABSTRACT

Our goal is to make legal information accessible to everyone, regardless of their background or financial situation. We aim to empower individuals to advocate for their rights and seek justice. The app covers various legal areas to provide assistance for a wide range of issues, promoting a comprehensive understanding of the legal landscape. The step-by-step guides offered by the app are designed to simplify complex legal processes, enabling users to navigate challenges with confidence. "Legal Assistance" is not just a repository of legal knowledge; it is a tool for empowerment. By providing users with the necessary information and resources, our app strives to instil confidence in individuals to effectively confront legal challenges. The user-friendly interface and clear guidance provided by the app are geared towards simplifying the often-daunting legal processes, making it easier for users to achieve their goals within the legal system. Our overarching goal is to contribute to a more informed and legally empowered society in Pakistan, where every individual can confidently address legal issues. The application provides a comprehensive exploration of various legal dimensions, delving into pivotal legislations such as the Muslim Family Laws Ordinance, 1961, the West Pakistan Family Courts Act, 1964, and the Divorce Act, 1869, among others. Additionally, it addresses specific statutes like the Dowry and Bridal Gifts (Restriction) Act, 1976, and the Guardians and Wards Act, 1890. Users gain access to information on family laws, including provisions from acts like the Dissolution of Muslim Marriages Act, 1939, the Child Marriage Restraint Act, 1929, and the Hindu Widows' Remarriage Act, 1856. A unique feature of the app lies in empowering users with legal insights based on the specific act and section applicable to their issues.

1.3.3 Community Support

1.3.6 Feedback-Driven Improvement

1.3.7 Dynamic Suggestions and Trends Update

1.4 Scope Of Project

1.4.2 Technological Integration

1.4.3 Educational Content and Continuous Learning

1.4.4 User Empowerment

1.4.4 Community Building
