CAREER READY AI

ABSTRACT

Our initiative The Career Ready AI, featuring a collaborative and realistic environment, proposes a mobile application that effectively aids users in preparing for job interviews and enhancing their confidence. Utilizing cutting-edge tools, like as OpenAI's GPT-4, users can engage in practice interviews that closely mimic real scenarios. The app's principal function is an AI-driven interview simulation, enabling users to interact with the system via voice or text inputs. Due of its versatility, users can practice according to their preferences while receiving consistent evaluations based on their responses. The application offers tailored interviews according to the user's industry, employment level, and specific needs. Moreover, a dashboard tool enables users to track their progress over time, promoting continuous learning and development. The software offers comprehensive, actionable feedback to assist users in pinpointing areas for enhancement, so allowing them to modify their responses. Additionally, it provides tools such as sample responses, frequently asked interview questions, and sector-specific advice to assist users in achieving success. The application's intuitive interface, crafted for accessibility, guarantees it serves users with diverse degrees of technical expertise. Providing a comfortable and stress-free setting enables candidates to refine their interviewing skills and acquire immediate confidence. The application seeks to equip users with the necessary tools and insights to excel in their job search and enhance their performance in actual interviews.

TABLE OF CONTENTS

DECLARATION	ii
APPROVAL FOR SUBMISSION	iii
ABSTRACT	v
TABLE OF CONTENTS	vi
LIST OF TABLES	ix
LIST OF FIGURES	x
LIST OF SYMBOLS OR ABBREVIATIONS	xi
LIST OF APPENDICES	xii

Table Of Contents

Chapter 1

1	INTRODUCTION	1
1.1	Background	1
1.2	Problem Statement	1
1.3	Aims and Objectives	2
1.4	Scope of Project	3

Chapter 2

1	LITERATURE REVIEW	4
2.1	Background	4
2.2	Related Work	5
2.3	Comparison Table of Existing Studies	6

Chapter 3

	REQUIREMENT SPECIFICATIONS	7
3.1	Existing System	7
3.2	Proposed System	7
3.3	Specific Requirements	8
3.3.1	Functional Requirements	8
3.3.2	Non-Functional Requirements	9
3.4	Project Organization	10
3.5	Roles and Responsibility:	11
3.6	Planning Phase:	11
3.7	Analysis Phase:	11
3.8	Design Phase:	12
3.9	Development Phase:	12
3.10	Testing Phase:	12
3.11	Deployment Phase:	13
3.12	Maintenance Phase:	13
3.14	Detailed Tasks:	14

Chapter 4

DESIGN AND METHODOLOGY	16
4.1 Development Approach: Agile Methodology	16
4.2 Tools and Technologies	17
4.3 Database Design	17

Chapter 5

SYSTEM IMPLEMENTATION	30
5.1 Development Approach: Agile Methodology	30
5.2 Tools and Languages	30
5.3 Database Design and Implementation: Mango DB	31
5.4 User Interface (UI) Design and Implementation	31
5.6 Modules Discussions	32

Chapter 6

1 SYSTEM TESTING AND EVALUATION	34
6.1 Testing	34
6.2 Testing Modules	35
6.3 Test Cases of project modules:	38

Chapter 7

1 CONCLUSION	40
7.1 Conclusion	40
7.2 Future Work	41
