ACKNOWLEDGMENT

First of all we would like to be thankful to Almighty ALLAH, the most merciful and beneficent, who has given us the ability to complete the project well within the allocated time and gained valuable knowledge all along.

We are also grateful to our Supervisor “Mr. Abdul Sattar Nazi” who has always been there for guidance and supported us to the best of his intention and abilities.

Here we must also point out the name of “Mr. Fahim Ehsan” Chief Executive Officer and “Mr. Ansar” Senior Manager Admin at Blessing (pvt) ltd for being so supportive and for providing us with a healthy and learning environment. It has been a great pleasure working alongside them and we have learned a lot from the knowledge they have provided us about business industry in Pakistan.

Abstract

Blessing Gas (pvt) Ltd. Is an LPG (Liquefied Petroleum Gas) marketing company with nationwide distribution and sales operations in Pakistan. The highly consumed alternative fuel used domestically, industrial & commercially for fulfilling their need as a part of an energy.

The major departments at blessing gas are finance, Operations management, Marketing and Human resource. Each department has its duties and roles, and contribute mutually in achieving the goals of the organization. Supply chain management was previously being ignored as it Is a relatively new concept in Pakistan however it is critical in decreasing costs and improving the overall value created by the company.

The main focus of our project is based on implementing a Supply Chain Management Department at Blessing Gas (PVT) Ltd and improves the overall efficiency of the value chain at every step. To complete this project we discussed the scope and benefits of supply chain management with the top level management and with their help and coordination identified many inefficiency in the value chain. By using supply chain principles we have provided the company with effective solutions that will help eliminate wastages and save time and costs for the long term future. The focus of our project is not only limited to the internal factors within the organization but also the influence of external factors such as the government and the regulatory authorities that govern the distribution and generation of liquefied petroleum gas within Pakistan.

Contents

ACKNOWLEDGMENT	2
ABSTRACT	3
CHAPTER 1: INTRODUCTION TO LPG	7
1.1 LPG status in Pakistan	8
<i>1.2 LPG Consumption in Pakistan</i>	<i>9</i>
1.3 LPG licensing in Pakistan.....	10
1.3.1 Pre-Qualification for LPG License	10
1.3.2 Minimum Work Program	10
1.4 Import policy of LPG And its Duty Structure.....	11
1.5 Current status of LPG Marketing Companies	11
CHAPTER 2:INTRODUCTION TO COMPANY	12
2.1 Salient features of the LPG bottling plant:.....	12
2.2 Current State of the Company.....	13
2.3 Strategies of the company.....	15
2.4 Departments at Blessing Gas (PVT) LTD.....	15
2.4.1 Finance and Account Department:	15
2.4.2 Operations Department	16
2.4.3 Material / Store Department	16
2.4.4 Marketing Department	17
2.4.5 Admin & Human Resource Department	17
2.5 Human, Safety & Environment Policy (HSE Policy).....	18
2.6 Working Environment.....	19
2.7 Competitor	19

2.8 Project rationale/ Background	20
2.9 Project Goal	20
2.10 Broad statement of scope	21
2.11 Project objectives	21
2.12 Anticipated Benefits	21
2.13 Key Success Factors	21
2.14 Quality Definition	22
2.15 Estimated Budget	22
2.16 Constraints	22
2.17 Potential Risks	23
2.18 Conflict between the group members	24
2.19 Team Communication	24

CHAPTER 3: PROBLEM DEFINITION & REQUIRMENT

ANALYSIS	25
3.1 Forecasting is inaccurate or non-existent	25
3.2 Old and inefficient inventory management practices	25
3.3 Limited suppliers and customers	26
3.4 Upstream and Downstream transportation	26
3.5 High Ordering and holding costs	27
3.6 Lead time wastages	27

CHAPTER 4: DESIGN AND IMPLEMENTATION	28
CHAPTER 5: Supply Chain Management Strategy	29
5.1 Benefits of Supply Chain Department.....	30
5.1.1 Reduction in Costs	30
5.1.2 Increased Efficiency	30
5.1.3 Increased Output	31
5.1.4 Increased Profits	31
CHAPTER 6: RECOMMENDATION	32
6.1 Devise an accurate and effective forecasting system	32
6.2 Adopt modern inventory management techniques & implement-computerized system..	33
6.3 Establish a dependable network of suppliers for mutual gain	34
6.4 Cost efficient Logistics	36
6.5 Calculate EOQ to balance holding and ordering costs	37
6.6 Calculate accurate lead times to avoid loss of sales and stock outs	38
6.7 Future growth Possibilities	39
CHAPTER 7: Conclusion	40
Bibliography	41
References	41
