## **Abstract**

Depreciation of currency has several affect on the economy. This research analyzed the impact of Pak-rupee depreciation on the business of Pakistan while using the regression and trend analysis technique the data from 2004 till 2013 is taken from the state bank of Pakistan, the statistic bureau of Pakistan. The research result concluded that the depreciation of rupee value caused business growth to decline and also concluded that the main factor behind the depreciation of rupee is the issuance of new notes, trade deficit, inflation rate, foreign reserves, foreign debt repayments.
