## Table of contents

CHAPTER	TITLE	PAGE
Chapter 1	1. Introduction	01
	1.1. Importance of supply chain management	04
	1.2. Evolution of supply chain management	07
	1.3. About Pakistan State Oil	12
	1.4. Problem statement	13
	1.5. Objective of the study	15
	1.6. Significance of the study	15
	1.7. Respondents of the study	16
	1.8. Research instrument	16
	1.9. Qualitative and quantities approaches	17
	1.10. Scope and limitations of the study	18
Chapter 2	1.11. Definition of terms	19
	2. SCM in the light of literature	20
	2.1. Case study concepts regarding SCM	20
	2.2. Gaps to be bridged by the study	24
Chapter 3	2.3. Areas for further studies	24
	3. Industry Analysis	25
	3.1. Installations and distribution hubs	25
	3.2. State of competition in petroleum	28
	3.3. National Production capacity	30
	3.4. International scenario of imports	32
	3.5. Industry sales performance	33
	3.6. Region wise consumption	34
Chapter 4	3.7. The market for petroleum products	36
	4. Supply Chain Process of PSO	39
	4.1 Supply chain practices at PSO	39
	4.1.1. Technologies in place	39
	4.1.1a. ERP systems	40
	4.1.1b. Advanced planning and scheduling	40
	4.1.1c. Process of getting the product	40
	4.1.1d. Orders generation	41
	4.1.1e. Forecasting	42
	4.2 Operations analysis of PSO	42
	4.3. Port facilities	42
	4.4. Pipeline network	43
	4.5. Ownership of refineries and PSO	47
	4.6. Oil marketing and distribution	47
	4.7. The market for petroleum and PSO	47
4.8. Logistics function at PSO	49	
4.9. Logistics infrastructure	50	
4.10. Logistics activities	54	
4.11. Supply chain evolution at PSO	55	
4.12. Control and monitoring	58	

CHAPTER	TITLE	PAGE
Chapter 5	5. Major issues and problems	59
Chapter 6	6. Findings and conclusion	60
Chapter 7	7.1. Business process modelling	63
	7.2. Customer relationship management	64
	7.3. E-procurement	65
	7.4. More products more share	65
	7.5. Value added services	66
	7.6. New opportunities	66
	7.7. Action plan	67
