ABSTRACT

In modern era, it is becoming seemingly impossible to manage and run business using traditional techniques. Automation and computerization is the need of time. The same was felt by Haleem Ghar (Pvt.) Ltd. management and they decided to develop and implement a solution for their enterprise, to efficiently and successfully manage their business. The developed solution is the first step in achieving the goals set by Haleem Ghar management for efficiently managing exiting business and smooth and scalable growth in future.

TABLE OF CONTENTS

1. INTRODUCTION	2
1.1. Objective	2
1.2. Business Need.....	3
1.3. Product Perspectives	3
1.3.1. System Interface.....	3
1.3.2. User Interface.....	3
1.3.3. Memory Constraints.....	3
2. REQUIREMENTS ANALYSIS	5
2.1. System Breakdown	5
2.1.1. Module 1: Authentication	5
2.1.2. Module 2: Employee Management.....	5
2.1.3. Module 3: Payroll	7
2.1.4. Module 4: Sales.....	7
2.1.5. Module 5: Products	8
2.1.6. Module 6: Location Management.....	8
2.1.7. Module 7: User Management.....	8
2.1.8. Module 8: Report Generation	8
2.2. Deliverable.....	9
2.3. Application Architecture.....	10
2.3.1. Architecture.....	10
2.3.2. Tools/ Languages.....	11
2.3.3. Rationales of Tools/Languages.....	11
3. HIGH LEVEL DESIGN	20
3.1. Modular Diagram.....	20
3.1.1. Description: Modular Diagram	20
3.2. System Flow/ Process Diagram	23
3.2.1. Description: System Flow/ Process Diagram	24
3.3. Detailed Process Diagram.....	25
3.3.1. Module 1: Employee Management.....	25
3.3.2. Module 2: Task Management	29

3.3.3.	Module 3: Payroll	31
3.3.4.	Module 4: Sales.....	34
3.3.5.	Module 5: Products	36
3.3.6.	Module 6: Location Management.....	38
3.3.7.	Module 7: User Management.....	40
3.3.8.	Module 8: Report Generation	42
3.4.	User Interaction Diagram.....	44
3.4.1.	Description: User Interaction Diagram.....	45
4.	DETAILED DESIGN	47
4.1.	Assumptions/ Dependencies	47
4.1.1.	Software/ Hardware Requirements	47
4.1.2.	Operating System.....	47
4.2.	System Architecture	48
4.2.1.	Use Case Diagram.....	48
4.2.2.	Use Cases	51
4.2.3.	Entity-Relationship Diagram	73
4.2.4.	Database Design.....	74
4.2.5.	Sequence Diagrams.....	79
4.2.6.	Class Diagrams	87
5.	IMPLEMENTATION	89
5.1.	Tools and Technologies	89
5.2.	Software Components	89
5.3.	Major Considerations.....	89
5.3.1.	Major ERP Haleem Ghar (Pvt.) Ltd. Methods	90
6.	TESTING	102
6.1.	Testing the Software	102
6.2.	Testing Techniques	102
6.2.1.	Black Box Testing.....	102
6.2.2.	White Box Testing	102
6.2.3.	Path Testing	103
6.2.4.	Regression Testing.....	103

6.2.5.	Unit Testing	103
6.2.6.	System Testing.....	103
6.2.7.	Acceptance Testing.....	103
6.3.	Deriving Test Cases	104
6.4.	Test Cases	104
7.	CONCLUSION.....	119
