APPROVAL FOR EXAMINATION

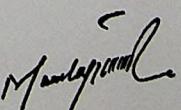

Candidate's Name: M. WALEED Registration no# 35345

Thesis Title: **Technological miracles on supplier's capability and performance up gradation**

I hereby certify that the above candidate's thesis has been completed to my satisfaction and, to my belief, its standard is appropriate for submission for examination. I have also conducted plagiarism test of this thesis using HEC prescribed software and found similarity index at _____ that is within the permissible limit set by HEC for MBA thesis. I have also found that the thesis is in a format recognized by the Department of Management Sciences.

Supervisor's signature:  Date: _____

Name: Sir Mumtaz Khan

HOD's Signature:  Date: _____

Acknowledgement

First of all, I want to thank Almighty Allah for all the blessings he showered on me throughout life.

Most importantly, I want to communicate my gratefulness to my Supervisor for assigning me the project with the strong believes that I can complete it successfully. I am thankful to Sir, Mumtaz Khan inspirational supervision, advices and analysis that helped me to complete this thesis.

Also, I am highly gratified to all those who participated in this research and their support for providing me essential information about my research.

In this research, descriptive approach was adopted to collect data from the respondents and the data were collected with the help of questionnaire. As well as, the data were collected from secondary sources such as books, journals, and websites. The sample size was 100. Descriptive statistics, Frequency, Cross Tabulation, Regression and Correlation Analysis were used to analyze the data.

Finding

The finding of this research shows that there is significant relationship between implementation of supplier performance management system and the implementation of SCM along with supplier orientation (SCAO).

Implications

The research could be extended in other areas such as implementation of SCM, which can be extracted through the use of technology in business environment, which can benefit the society as well.

Key Words: Supply Chain Management, Supply Chain Technology, SCM, SCAO

Abstract

Purpose:

The purpose of this research was to find out the use of Enterprise Resource Planning to enhancing the Capabilities and performances of the Suppliers in textile sector at Karachi. Also, the purpose of this paper is to analyze its role in supply chain operations and assesses its impact on supplier capabilities and performances from supply chain perspectives

Methodology:

In this research deductive approach was adopted. The research is quantitative in nature and the data were collected with the help of questionnaire in different textile firms of Karachi. The sample size was 100. Data analysed through Reliability, Multiple Regression and Correlation Analysis.

Findings:

The finding of this research shows that there is a significant impact of ERP implementation on supplier performance. Also, the paper found that ERP could enhance the ERP adopter's supplier capability (SCAP).

Implications:

The research could be explored on other sectors as well and more gains should be extracted through the use of technology in textile sector. ERP is multi-module software which can benefit other sectors as well.

Key Words: Supply Chain Management Integration, Enterprise Resource planning, Supply Chain Technology, Supplier's Capability and Performance.
