Spring 2017

ACKNOWLEDGEMENT

Firstly, I am obliged to **Ms Sabina Shirazi, Department of Management Sciences, Bahria University Islamabad**, who has supervised me and furnished me with a brilliant chance to do the present research.

I wish to express my profound feeling to my mentor, **Rear Admiral (Retd) Shahid Saeed HI(M) Bahria University Pro Rector, DG Islamabad Campus**, for his direction and valuable proposals, which helped me in finishing the venture.

The research couldn't have been finished, notwithstanding the help and support from different individuals. I might want to accept this opportunity to say thanks to **Dr. Muhammad Ali Saeed, HOD of Management Science Bahria University Islamabad** for continually persuading me and giving profitable recommendations amid the improvement of this proposition.

I want to offer my particular appreciation to the following:

- **Dr. Ismaeel Ramay** Senior Professor, Bahria University Islamabad. Much obliged to you for your priceless support and tolerance with me.
- **Dr. H. Mushtaq Ahmad** Senior Associate Professor, Bahria University Islamabad. Much obliged to you for your precious exhortation and direction.
- **Dr Asif K. Mian** Senior Assistant Professor, Bahria University Islamabad.
- **Ms Sarina Zainab Shirazi** Assistant Professor, Bahria University Islamabad.
- **Mr Wali Ur Rehman** Student Research Cell, Bahria University Islamabad.
- **OCAC Pakistan** Team. Much obliged to you such a great amount for enabling me to gather my information amid the meeting.
- **Mr Abdul Jabbar Memon** DG Oil (Min of Petroleum and Natural Resources). Much obliged to you for your good and otherworldly support.

Words are insufficient in offering my gratitude to my parents and better half for their support amid the research work.

ABSTRACT

The execution of Supply Chain Practices and processes, for example, e-Collaboration and Information Sharing among Supply Chain accomplices is ordinarily connected with the arrangement of proficiency and improved performance. However, little thought has, up until this point, been given to the exact investigation of the impacts of the effective usage of Supply Chain Practice on performance.

The important target of this review is to fill this crevice by concentrating on impacts of Supply Chain Practice up on e-Collaboration among Supply Chain accomplices. The destinations likewise included analyzing the impacts of Information Sharing on proficiency and eventually up on performance amongst Supply Chain accomplices in Pakistan. Finally, the review looked to find out the impact of proficiency on performance of production network accomplices in Pakistan.

A quantitative research strategy in information accumulation with likert scale based survey is utilized as a part of this review. information from a specimen of firm proprietors/supervisors from all OCAC (oil companies advisory council (<http://www.ocac.org.pk/>) of Pakistan's five territories was utilized for the last information examination of this exploration. Computation is performed for factor reduction and dimensional groupings utilizing SPSS. Reliability and Regression analysis is performed utilizing SPSS 21.
