APPENDIXES

A. Turnitin Originality Report -----	139
B. Research Permission Letter -----	140
C. Gratitude Questionnaire (English version) -----	141
D. Single Item Happiness Scale (English Version) -----	142
E. Demographic Information form and Consent Form (Urdu) -----	143
F. Gratitude Questionnaire (Urdu Version)-----	144
G. Single Item Happiness Scale (Urdu Version)-----	145
H. The ICP Subjective Wellbeing Scale-----	146
I. Stories used for Religious Storytelling Group-----	147

Religious Storytelling and positive suggestions had a much greater impact as indicated by quantitative results. Significant implications of the present study include the use of religious interventions in psychotherapy and use of Gratitude for orphan adolescents. Future research on the same topic should use qualitative means of measurement. Overall the findings of the present study are significant in the body of psychological literature on the types of psychotherapy.
