## **Acknowledgement**

Nobody writes alone. It is the common practice to gather the data from various sources. First of all I thank to Almighty Allah

Then I am very thankful to the management of Bahria University who offered this course to us and give us the chance to conduct the research..

And my ADVISOR, Madam Mehwish Zafar who taught me the necessary tools, processes and techniques with almost devotion and commitment thus earning my gratitude, without the help of her it couldn't have been possible.

Last but not the least I would also like to thank the officers of various Islamic banks who gave me the opportunity to work on this research project and who admired me through out in compiling this report.
