A thesis presented to the Department of Management Sciences,
Bahria University Karachi Campus, in Partial Fulfillment of the
Requirements of the MBA degree

FALL 2016

Bahria University Karachi Campus

MBA Thesis

2nd Half-semester Progress Report & Thesis Approval

Name of Student	Anum Saba
Registration No.	25053
Thesis Title	Impact of financial risks on performance of banks in Pakistan

Supervisor-Student Meeting Record

No.	Date	Place of Meeting	Topic Discussed	Signature of Student
5	15/2/17	Cubicle	Variables & Data collection was discussed	
6	5/3/2017	Cubicle	Data Collection method was discussed	
7	10/3/2017	Cubicle	Discussion on the next chapter and finding of the research	

APPROVAL FOR EXAMINATION

Candidate's Name: ANUM SABA Registration No. 25053

Thesis Title: Impact of financial risks on performance of banks in Pakistan

I hereby certify that the above candidate's thesis has been completed to my satisfaction and, to my belief, its standard is appropriate for submission for examination. I have also conducted plagiarism test of this thesis using HEC prescribed software and found similarity index at 17% that is within the permissible limit set by the HEC for the MBA thesis. I have also found the thesis in a format recognized by the Department of Management Sciences.

ABSTRACT

Purpose –

The research is generally conducted to understand the impact of financial risks on performance of commercial banks in Pakistan. The foremost aim and purpose of this research is to find out the impact of financial risks and the how it relates with the performance of the banks and leads the banks toward the profit or loss.

Methodology –

The nature of the research is the regression study, and for data of research organized secondary sources are used like, published data and the annual report of the selected banks of Pakistan. Many other statistical tools have also been used/applied in this regard i.e.: SPSS, Correlation, Regression, ANOVA and Coefficient.

Findings –

While conducting this research certain finding revealed which shows that the credit risk has an adverse impact on Return on Assets but have no impact on Return on Equity. While on the other hand liquidity risk has no impact on both Return on Assets and Return on Equity and when considering operational risk it has an impact on Return on Assets and Return on Equity.

Practical implications –

This research is thoroughly applicable on entire risks management policies makers and the top management of the commercial banks who have the authorities to manage and improved the performance of the banking sector. Moreover the research is very useful for future researcher to improve the hidden phenomena in this particular area.

Keywords –

Return on Assets, Return on Equity, Financial risks
