## CERTIFICATE OF ORIGINALITY

This is certified that the intellectual contents of the thesis;

### “IMPACT OF SELF STIGMA AND QUALITY OF LIFE AMONG PSYCHIATRIC PATIENTS”

are the product of my own research work except, as cited property and accurately in the acknowledgements and references, the material taken from such sources as research journals, books, internet, etc. solely to support, elaborate, compare, and extend the earlier work. Further, this work has not been submitted by me previously for any degree, nor it shall be submitted by me in the future for obtaining any degree from this University, or any other university or institution. The incorrectness of this information, if proved at any stage, shall authorities the University to cancel my degree.

## **Thesis Completion Certificate**

Scholar's Name Tayyaba Shehzai Registration No. 43293

Programme of Study: MS Clinical Psychology

Thesis Title:

**Impact of Self Stigma and Quality of Life among Psychiatric Patients**

It is to certify that the above student's thesis has been completed to my satisfaction and, to my belief, its standard is appropriate for submission for Evaluation. I have also conducted plagiarism test of this thesis using HEC prescribed software and found similarity index at **16%** that is within the permissible limit set by the HEC for the MS degree thesis. I have also found the thesis in a format recognized by the BU for the MS thesis.

### **Author's Declaration**

I, Tayyaba Shehzadi hereby state that my MS thesis titled

**“Impact of Self Stigma on Quality of Life among Psychiatric Patients”**

is my own work and has not been submitted previously by me for taking any degree from this university

**Bahria University, Islamabad.**

or anywhere else in the country/world.

At any time if my statement is found to be incorrect even after my Graduate the university has the right to withdraw/cancel my MS degree.

## **Plagiarism Undertaking**

I, solemnly declare that research work presented in the thesis titled

**“Impact of Self Stigma on Quality of Life among Psychiatric Patients”**

is solely my research work with no significant contribution from any other person. Small contribution / help wherever taken has been duly acknowledged and that complete thesis has been written by me.

I understand the zero tolerance policy of the HEC and Bahria University towards plagiarism. Therefore I as an Author of the above titled thesis declare that no portion of my thesis has been plagiarized and any material used as reference is properly referred / cited.

I undertake that if I am found guilty of any formal plagiarism in the above titled thesis even after award of MS degree, the university reserves the right to withdraw/revoke my MS degree and that HEC and the University has the right to publish my name on the HEC / University website on which names of students are placed who submitted plagiarized thesis.

## **DEDICATION**

The heart of this study is dedicated to my parents, **ABDUL WAHEED** and **ZAHIDA PARVEEN**, and **LAIBA IDREES**, great role models and the rest of the family, for always believing in me, inspiring me, and encouraging me to reach higher in order to achieve my goals.

## **ACKNOWLEDGEMENTS**

First of all I want to thank Almighty Allaah for giving me the grace, strength and adoration to succeed in this program.

I would like to owe my gratitude to my worthy and honorable supervisor Dr. Mahmood Sadiq for his inspirational guidance, active co-operation and continuous encouragement for this research project. Through his motivation and able guidance I was able to accomplish the task successfully which otherwise would have been extremely challenging. I am very grateful to him for his considerable support for the project and also for the approval of the topic. I am obliged for his support, useful comments and criticism at various stages of this work throughout the course of study, in spite of the inconvenience to which he was at times put in his role as my supervisor. I also thank him for the personal support and friendship he has given me during various personal and professional crises.

A debt of thanks to Naeem Aslam (RA/Lecturer at NIP Islamabad) and Dr. Noshi Iram Zaman (PG Coordinator at BU Islamabad) who has provided assistance and support in relation to this thesis.

My sincere thanks are due to Mr. Shaf Ahmad for his support and enthusiastic collaboration which has enabled me to complete this research.

Finally of course, I owe a great deal to my parents, siblings and friend Laiba Idrees for all their affection and support through this journey and encouraging me when things got tough, also bearing my absence on important domestic events due to my commitment with the research project. Their strength and faith has held me steadfast through this span of time.

***Tayyaba Shehzadi***

## **Abstract**

*Present study aimed at finding the impact of self stigma and quality of life among psychiatric patients. To look at the connection between these factors and for measurable investigation Pearson's product moment relationship and multiple linear regressions were utilized. Convenient sampling technique was utilized to gather the information and sample included 200 members with the age range of 18-65 years in which 100 were males and 100 were females. Each finished the Self-Stigma Mental Illness Scale-Short Form (SSMIS-SF), and the World Health Organization (WHO) survey on the Quality of Life, Brief Form (WHOQOL-BREF). The impacts of self stigma on Quality of Life were surveyed utilizing multiple linear regression models. Self stigma seems, by all accounts, to be a dominator for Quality of Life for mental patients. There was significant negative relationship between self stigma and quality of life  $r=-.27^{**}$ . It was inferred that if self stigma expands then quality of life will diminish similarly.*

**Keywords:** Self Stigma, Quality of Life, Psychiatric Patients.
