

PETROLEUM SYSTEM OF KADANWARI AREA

By

UMAIR ALI KHAN

BS GEOPHYSICS

2012-2015

**DEPARTMENT OF EARTH & ENVIRONMENTAL SCIENCES
BAHRIA UNIVERSITY
KARACHI**

Thesis Acknowledgement

Foremost, I would like to express my sincere gratitude to my advisor my teacher Dr Mubarak Ali my Head Of Department PPL Chair for the continuous support of my BS thesis, for his patience, motivation, enthusiasm, and immense knowledge. His guidance helped me in all the time of research and writing of this thesis. I could not have imagined having a better advisor and mentor for my BS thesis.

Besides my advisor, I would like to thank the rest of my teachers: Sir Mohammad Jahangir Khan, Ma'am Shaista Iftikhar, Sir Mohammad Irfan. Sir Tahir and Sir Anis ur Rasool for their encouragement and their knowledge which they shared with me.

My sincere thanks also goes to Mr Qaseem Siddiqui from ENI, Mr Tariq Hasany Geoscience specialist for sharing some geological information with me about my project area.

I am thankful to my classmates for sharing some knowledge with me.

Last but not the least, I would like to thank my family: my parents for giving birth to me at the first place and supporting me spiritually throughout my life , siblings, grandparents and my few best friends.

Table of Contents

CHAPTER 1 8

1. OBJECTIVE OF THE STUDY: 8

1.1. STUDY AREA: 8

1.1.1. Area Information: 8

1.1.2. Exploration History: 9

1.1.3. SEISMIC LINES & WELL 9

CHAPTER 2 11

2. GEOLOGY AND TECTONICS OF THE AREA: 11

2.1. Geology of the Area: 11

2.2. Depositional Environment and Distribution: 11

2.3. Tectonic Setting of the Study Area: 12

2.3.1 Uplift in Late Cretaceous: 12

2.3.2 Early Eocene Wrench Faulting/Late Paleocene: 13

2.3.3 Tertiary Inversion: 13

2.4. STRATIGRAPHY OF THE STUDY AREA: 15

2.4.1 Sembar Formation: 15

2.4.2 Goru Formation: 15

2.4.3 Parh Formation: 15

2.4.4 Mughal Kot Formation: 15

2.4.5 Pab Formation: 16

2.4.6 Khadro Formation: 16

2.4.7 Ranikot Formation: 16

2.4.8 Laki Formation: 16

2.4.9 Ghazij Formation: 16

2.4.10 Kirthar Formation: 17

2.4.11 Siwaliks: 17

CHAPTER 3 20

3. SEISMIC METHODS FOR IDENTIFICATION OF PETROLEUM PLAY SYSTEM 20

3.1 Seismic Acquisition: 20

3.2 Components of Data Acquisition: 20

3.3 SEISMIC DATA PROCESSING 30

3.3.1 Seismic Data Processing Steps: 31

3.3.1.1 Time Adjustments: 31

3.3.1.2 Amplitude Adjustments: 31

3.3.1.3 The Frequency-phase Content: 31

3.3.1.4 Deconvolution: 32

3.3.1.5 The Data-Compression Technique: 32

3.3.1.6 The Data-Positioning Adjustment (migration): 32

DATA REDUCTION 32

3.3.1.7 Data 40

3.4 SEISMIC INTERPRETATION: 40

3.4.1.1 Seismic Interpretation Approaches: 40

3.5 Modes of Seismic Interpretation: 41

Step 1: Preview data 42

STEP 2: CREATE WELL CONTROL MAP 43

STEP 3: IDENTIFY WELLS WITH VELOCITY CONTROL 43

STEP 4: COMPUTE SIMULATED SEISMIC TRACES 43

STEP 5: IDENTIFY STRATIGRAPHY OF REFLECTORS 43

STEP 6: PICKING HORIZONS	43
STEP 7: MARK FAULTS	45
STEP 8: Time Contour Mapping :.....	46
STEP 9: Depth Contour Mapping :.....	46
STEP 9: Structural Interpretation :.....	46
STEP 10: Attribute Analysis :.....	47
3.6.1. Amplitude :.....	48
3.6.2. Normalized Amplitude :.....	48
3.6.3. Instantaneous Frequency :.....	48
Projected uses :.....	49
 CHAPTER 4	 51
 4. PETROLEUM SYSTEM	 51
4.1. Source Rock :.....	51
4.2. Reservoir Rock :.....	51
4.3. Cap Rock :.....	52
4.4. Trap :.....	52
4.5. Maturation and Migration :	52
 CONCLUSION	 59
 RECOMMENDATION	 59

ABSTRACT

This research thesis presents the study over the structural, stratigraphical features, tectonic settings and Petroleum play system of an area Kadanwari located in Middle Indus Basin Pakistan. Petroleum play has been studied by the integration of seismic methods. Seismic interpretation reveals that the Kadanwari Field is surrounded by flower structure fault.
