## **Abstract**

KSB Pumps Company is one of the leading manufacturer of Centrifugal Pumps, Valves and related systems. KSB stands for Klein Schanzlin and Becker, the three German friends who partnered to set up business unit for the manufacturing of Pumps. KSB Pumps Company was founded in 1871 and it expanded its operation all over the world with the passage of time.

KSB Pumps Company Pakistan was established in 1959 in Lahore. The application range of Pumps and Valves is very vast. These Pumps and Valves are used in all types of industries where there is a transfer of any fluid. KSB Pakistan has an organized franchise and dealership networks covering all major regions of Pakistan. KSB Pumps Company Pakistan as set up a new foundry in March, 2018 giving it a great compleutive edge. KSB Pumps Company Pakistan is the only multinational pump and valves brand which has a factory in Pakistan.

From last 59 years KSB Pumps Company Limited is working in Pakistan, expanding their business continuously with good profit margins. The study is based on the Marketing Strategies of KSB Pumps Company Pakistan to increase the Market Share in Pakistan. KSB has used different techniques to sustain their business in Pakistan despite difficult economic challenges and their business is growing. Different marketing techniques such as SWOT Analysis, PESTEL Analysis, Michael Porter Five Forces and Bowman Clock Strategy are used to analyze KSB Pumps Company's position in the market and their business model.

## Acknowledgement

I would like to express my thanks to Allah Almighty who gave me strength to finish this Project. I do thank for His blessings in my daily life for good health and good ideas. KSB Pumps Company Limited has given me a great chance of learning and professional development in my whole project. Therefore, I consider myself as a very lucky individual I am thankful to my parents for their continuous support and encouragement during my studies. I would also like to thank all my teachers who guide me in the right direction, they taught me how to ask questions and express my ideas, and my special thanks to **Mr. Malik Husnain** who recommend and suggest me to work on that organization. Without his guidance, this project would not have been completed in time.

## **Table of Contents**

|  |          |
|--|----------|
| <b>CHAPTER 1 Introduction and History.....</b>             | <b>1</b> |
| 1.1    Introduction .....                                  | 1        |
| 1.2    Purpose of Project .....                            | 1        |
| 1.3    Problem Statement .....                             | 2        |
| 1.4    Procedure.....                                      | 2        |
| 1.5    Company Overview.....                               | 3        |
| 1.6    KSB Pumps Pakistan.....                             | 4        |
| 1.7    Structure and Design of KSB Pumps Pakistan .....    | 5        |
| 1.8    Acheivements of KSB Pumps .....                     | 5        |
| 1.9    KSB Specialization .....                            | 6        |
| 1.10    Comparison with Competitors .....                  | 6        |
| 1.11    Competitive Advantage.....                         | 6        |
| 1.11.1 Type of Competitive Advantage .....                 | 7        |
| <b>CHAPTER 2 Industry Overview and Marketing Mix .....</b> | <b>9</b> |
| 2.1 KSB Vision .....                                       | 9        |
| 2.2 KSB Mission.....                                       | 9        |
| 2.3 KSB Strategic Objectives .....                         | 10       |
| 2.4 Key Services Offered.....                              | 10       |

|   |    |
|---|----|
| 2.5 KSB Core values .....   | 10 |
| 2.6 Quality Principles.....                                       | 10 |
| 2.6.1 Achieving maximum customer satisfaction.....                | 10 |
