A thesis presented to Bahria University, Islamabad

In partial fulfillment of the requirements

for the degree of

Masters in Clinical Psychology

2019

BAHRIA UNIVERSITY ISLAMABAD

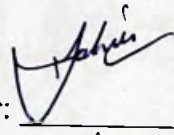

APPROVAL SHEET

SUBMISSION OF HIGHER RESEARCH DEGREE THESIS

Candidate's Name: Ayesha Tabassum Shaikh  
Discipline: Clinical Psychology (M.S)  
Faculty/Department: Institute of Professional Psychology

*I hereby certify that the above candidate's work including the thesis has been completed to my satisfaction and that the thesis is in a format of an editorial standard recognized by the faculty/department as appropriate for examination.*

Signature(s):

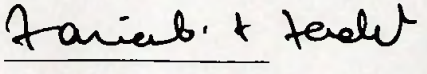

Principal Supervisor: 

Date: 25/4/2019

The undersigned signifies that:

1. The candidate presented at a pre-completion seminar, an overview and synthesis of major findings of the thesis, and that the research is of a standard and extent appropriate for submission as a thesis.
2. I have checked the candidate's thesis and its scope, format, and editorial standards are recognized by the faculty/department as appropriate.

Signature(s):

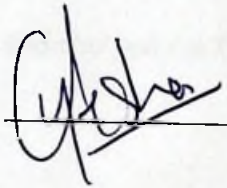

Dean/Head of Faculty/Department: 

Date: 25/4/19

## DECLARATION OF AUTHENTICATION

*I certify that the research work presented in this thesis, to the best of my knowledge, is my own.  
All sources used and any help received in the preparation of this thesis have been acknowledged.  
I hereby declare that I have not submitted this material, wither in whole or in part, for any other  
degree at this or any other institution.*

Signature: \_\_\_\_\_

A handwritten signature in black ink, appearing to be 'C. K. S.', written over a horizontal line.

## ACKNOWLEDGMENTS

Foremost I would like to thank my family who have always believed in me and made me the strong person I am today. It is their prayers which have made me come this far and achieve so much in life. A special thanks to my beloved brother, who always had faith in me even though I never thought I would be able to do this. He made it easier for me to walk through this path and always stood beside me like a friend, he is the best brother anyone can ever ask for so thank you Bhai for always being there for me.

I would also like to thank my supervisor Dr. Tahira Yousaf who had always stood by my side and helped through the research work. She has always believed in me and showed me faith that I can do this.

Thank you Institute of Professional Psychology for giving me so much and teaching me what was not only important for my degree but for my life. My Dean, Dr. Zainab Zadeh, has always been my inspiration. She has motivated me and had faith in me, she explored what I was capable of. Thank you IPP for everything that you gave me.

## DEDICATION

To my parents

This thesis is for my parents, who have always believed in whatever I do. I am super proud to be your daughter. So I would like to dedicate this to you for all the hard work that you both did just to teach me what I am today and stood by my side. Thank you for teaching me never to give up but never to expect so much even from yourself because even if you fail you will achieve it the next time. Thank you for being my super hero Abu, my inspiration. Thank you for being the best mother Ammi, my super woman.

## ABSTRACT

The current research was aimed to examine the relationship between Facebook (FB) photo activity and disturbed body image of young adults. This study was extended and replicated to identify the Facebook use that correlate with increased body image disturbance among young adults. Total of 300 young adults were approached. This was a cross-sectional, survey based study. Through non-probability convenience sampling the participants were approached. The participants were provided with the questionnaire measures of Facebook and Total Internet Use (Rideout, 2010), Facebook Appearance-Related Exposure (Meir & Grey, 2014), Weight Satisfaction subscale of the Body-Esteem Scale for Adolescents and Adults (BES) (Mendelson, Mendelson, & White, 2001), Drive for Thinness a subscale of Eating Disorder Inventory (Garner, Olmsted & Polivy, 1983), Sociocultural Internalization of Appearance Questionnaire (H. Keery, Shroff, Thompson, Wertheim, & Smolak, 2004), The Physical Appearance Comparison Scale (PACS) (Thompson, Heinberg, & Tantleff-Dunn, 1991) and Self-Objectification Questionnaire (Noll & Fredrickson, 1998). The results were generated through Jamovi by the guidance of a statistician. Pearson Correlation was used to analyze the correlation between the variables. Internal consistency of the data was analyzed by using Cronbach's alpha.
