Signature of Supervisor Date

..... 24/05/2018

Acknowledgments

In the name of ALLAH, the most gracious, the most merciful, at each beginning, we express our appreciation to Almighty ALLAH for showering his blessings and endowments upon us and who gave us the ability, strength and courage to complete this project. Without His will nothing can happen.

Furthermore, we would like to thank our parents who supported us, encouraged us and invested in us. Without their cooperation we would not have been where we are today. We would like to express our gratitude towards all those who supported us and gave us the opportunity to make this project.

A special thanks to our final year project supervisor, all of this would not have been possible without the support, encouragement and guidance of our supervisor **Engr. Ammarah Khalid.** She provided us with all the necessary information needed for the development of a good system and invested her full effort and a lot of time with us. We heartily thank the members of Project Management Office (**Engr. Nabiha Faisal, Engr. Mursaleen Javed and Engr. Ayesha Zaveri**) and all our teachers for their insightful suggestions that helped us improve the project along the way, keeping us in line, making us follow the deadlines strictly and actually completing the project on time.

Abstract

Mehnart is a freelancing platform where any skilled artist in Pakistan will be paid to use his/her artistic skills. Skilled people in Pakistan face difficulties in utilizing their talents and skills be it a photographer, writer, sketching or even a musician. The sudden growth in creative industry in Pakistan has seized our attention that the field shows a lot of potential for business and commercialization. Our goal is to support every creative & imaginative artist in Pakistan. The purpose of this platform is to increase employment and provide an interactive platform where every artist can showcase their talent whether he/she is certified or not in the field to provide his/her services in order to make an earning out of it. It will allow every artist to build up their own contents and services. The project will be focused for people who have skills for artistry such as (designer, painter, photographer, writer, composing). The website also features a training module where an artist can also train the client in learning or improving a particular skill. The client will be notified when the artist posts a training service in the training panel similarly the way the artist posts a service on the work panel. Mehnart categories included related to Arts and creativity and it provide a complete platform for every skilled personnel and to encourage them in doing what they're really good. An artist has to post his/her ad in the website in order to get work from the client. The artist needs to upload his/her sample work. Through Mehnart any artist will promote their skills and their work. Admin has the authority and all the resources will be handled by the admin.

Table of contents

1. INTRODUCTION 12
