Supervisor:

Salman Ali Khan

Department of Business Studies

Bahria University Islamabad

2019

I would firstly like to thank my thesis supervisor Sir Salman Ali Khan. His extensive experience and support have been invaluable for me throughout the whole process of writing the thesis.

I am thankful of Bahria University department of management sciences and the research cell of providing me the opportunity to conduct the study as an MBA degree requirement.

Finally I would like to thank my parents and my teachers for the continuous support in my studies.

Thank you

Mahnoor Khalid.

### Abstract

RFID is a modern technology that is presented in the world from many years. This application use to work inside the organization in different aspect. This technology is believed as advance and modern. In organizations, the RFID is working in a limited aspect. Thus, the RFID system is also proved helpful in various manner including applications that help to track different parts in manufacturing for saving time and resources. Today, information technology is depending

upon different layers of equipment in the organization where the management use tools, work virtually, use modern operating systems and applications for performing functions effectively. Research kind is descriptive in environment.

Finding of this investigation is associated with respect to communication technology that is being increasing its growth level in developing countries on routine basis. This is because people are getting maximum use of this fast technology in their routine activities. Nothing is possible if communication technology is not presented. The warehouse needs proper design that enable the organization to customer the flow of work and picking the things in logical aspect for making sure about the design of warehouse for optimizing the allocation for optimizing the allocation of inventory.

**Keywords:** RFID, Information Technology, Communication Technology, Automatic Identification Technology and Warehouse Management system.

## Table of Contents

Abstract .....	1
1 <u>Introduction</u> .....	7
1.1 <u>Problem Statement</u> .....	10
1.2 <u>Research Objectives</u> .....	10
1.3 <u>Research Questions</u> .....	10
1.4 <u>Significance of the Study</u> .....	11
1.5 <u>Thesis Contribution</u> .....	11
1.6 <u>Thesis Structure</u> .....	12

2	<u>Literature Review</u> .....	13
2.1	<u>Radio Frequency Identification</u> .....	13
2.2	<u>Information Technology</u> .....	14
2.3	<u>Communication Technology</u> .....	15
2.4	<u>Automatic Identification Technology</u> .....	17
2.5	<u>Warehouse Management System</u> .....	18
2.5.1	<u>Theoretical Framework Model</u> .....	20
3	<u>Research Methodology</u> .....	24
3.1	<u>Research Design</u> .....	27
3.2	<u>Population</u> .....	27
3.3	<u>Sample Size Technique</u> .....	27
3.4	<u>Data collection technique</u> .....	28
3.5	<u>Statistical Development Tools</u> .....	29
3.6	<u>Reliability statistics</u> .....	29
4	<u>Data Results and Interpretation</u> .....	30
4.1	<u>Frequency Analysis</u> .....	30
4.2	<u>Correlational Analysis</u> .....	35
4.3	<u>Hypotheses evaluation summary</u> .....	37
4.4	<u>Regression Analysis</u> .....	37
4.5	<u>Chi Square test Model</u> .....	40
4.5.1	<u>Employee Experience * RFID (Radio Frequency Identification)</u> .....	40
4.5.2	<u>Employee Experience * Information Technology</u> .....	42
4.5.3	<u>Employee Experience * Communication Technology</u> .....	44
4.5.4	<u>Employee Experience * Automatic Identification Technology</u> .....	46
4.5.5	<u>Employee Experience * Warehouse Management System</u> .....	48
5	<u>Conclusion, Recommendation and Future Research</u> .....	51
5.1	<u>Conclusion</u> .....	51

5.2	<u>Recommendation</u> .....	52
5.2.1	<u>Future Research</u> .....	53
6	<u>References</u> .....	54
6.1	<u>Part 1: Personal Information</u> .....	56
6.2	<u>Part 2: INSTRUCTIONS</u> .....	57
6.2.1	<u>Section A: RFID (Radio frequency identification)</u> .....	57
6.2.2	<u>Section B: Information Technology</u> .....	57
6.2.3	<u>Section C: Communication Technology</u> .....	58
6.2.4	<u>Section D: Automatic Identification Technology</u> .....	58
6.2.5	<u>Section E: Warehouse Management System</u> .....	59
6.2.6	<u>Appendix (Statistical)</u> .....	60
