ACKNOWLEDEMENTS

From the deepest of my heart, I would like to thank Almighty ALLAH for the unconditional love He has shown me throughout my life and strength He has provided me to cope with any challenges that come across in my life. I would like to thank and appreciate the effort of my supervisor Mr. Sehar Zeast who has shown her devotional commitment towards the accomplishment of this dissertation. Her professional guidance, overwhelming attitude and irresistible support has made this dissertation a possibility within limited span of time allowed. I would like to thank my family as I am very grateful for their love and support through every thick and thin phase of my life. My family has been the prime reason behind the success and achievements that I have in my master's degree. I owe a great debt of gratitude to my parents for their continuous support and for being my motivation throughout my life. I would like to appreciate the supporting effort of my graduate friends who has helped me a lot throughout my graduate degree.

ABSTRACT

This study is focused mainly on identifying the impact of factors that lead to investment within mutual funds of Pakistan. This study has selected mutual funds sector of Pakistan and targeted the people who have the experience of making an investment within mutual funds of Pakistan to collect the data to be used within this study. It has been found that consistent returns, higher gains, effective marketing, and management risk (independent variables) have significant impact on the investor satisfaction (dependent variable). Research instrument used within this study for the collection of data from respondents has been the structured questionnaire. Various statistical instruments that are used primarily to analyze the relationship between these variables includes descriptive frequencies, reliability, correlation, regression, ANOVA, coefficient etc. The results interpreted through correlation and regression by the help of SPSS software have shown the significant impact that factors (consistent returns, higher gains, effective marketing, and management risk) has on influencing the investor satisfaction. The findings have explained that factors such as consistent returns, higher gains, effective marketing, and management risk prove highly significant in influencing satisfaction level of investors within mutual funds of Pakistan.
