## **ABSTRACT**

The title of the research is "Relationship between Job satisfaction and Life satisfaction". This thesis is submitted as a partial fulfillment of the requirements for the degree of BBA program.

The objective of the study was to study the effect of job satisfaction upon life satisfaction and vice versa and to identify variables in this regards and study their relationships and importance. For this reason close-ended questionnaires were used as a tool for survey. Authentic research was conducted.

From the findings it is concluded that people who are more satisfied with their jobs tend to be happier with their lives.
