Abstract

The Project aim is to automate the manually travel and tour system for the travel and tour companies. The Online mobile / web base tourism system will seek the student and coordinatoras it will provide the facility of online Management of travel and tourism companies and the people who want to do tour as per need and as per choice without physically visiting the travel companies for the information and guidance. Our online mobile / web base tourism system will improve the overall process of the travel and tourism companies and provide the facility to reach the customer fast and efficiently and convey the information to user about packages and services. And main purpose of the system is to provide choice to user. We want to make the website and Android app that provide the planned trips and customized trips as per need of customer. we want to provide better options to the user who want to travel as per choice and as per cost on the website and to design android app for guidance and to get the trip updates and alerts on the cell phone.

Acknowledgments

We owe our sincere gratitude to our project supervisor Mr. Sarour Zaidi senior lecturer Department of Computer Science, who took an eager interest in our project work and she guided us during the project. We are indebted to our project guide for her constant supervision and for providing necessary information to us regarding the project work and also for his support in completing the project

2.5 Customer relationship . . . 13

3 Requirement Specifications **14**
3.1 Existing System . . . 14
3.2 Proposed System . . . 14

3.3 Requirement Specifications 15
3.4 Functional Requirements 15
3.5 Non- Functional Requirements 18
3.6 Use Cases 19

4 Design **30**
4.0.1 System Architecture 30
4.1 Design Constraints 31
4.2 Design Methodology 31
4.3 Data Flow Diagram 33
4.3.1 Zero level DFD 33
4.3.2 Level 1 DFD 34
4.4 Sequence Diagram 35

5 System Implementation **41**
5.1 System Architecture 41
5.2 Tools and Technology 41
5.2.1 MYSQL Database 42
5.2.2 Visual Studio 42
5.2.3 Android Studio 42
5.3 Development Environment/Languages Used 42
5.3.1 PHP 42
5.3.2 JavaScript 42
5.3.3 Asp.Net 43
5.3.4 HTML/CSS 43
5.4 Methodology 43

6 System Testing and Evaluation **44**
6.1 Introduction 44
6.2 Interface Testing 44
6.2.1 Test Case for User Sign-up Screen 45
6.2.2 Test Case for Log-in Screen 46
6.2.3 Test Case for Home Page 47
6.2.4 Test Case for user Portal/Interface 48
6.2.5 Test Case for Admin Portal/Interface 49
6.3 Usability Testing 50
6.3.1 Usability Test Case for User Sign-up Screen 50
6.3.2 Usability Test Case for log-in Screen 51

6.3.3 Usability Test Case for Insert / Update / Delete Record 52
6.4 Exception Handling Testing 53
6.4.1 Test Case for Log-in Exception Handling 53
6.5 Performance Testing 54
6.5.1 Test Case for Application Performance 54

7 Conclusions **55**
7.0.1 Conclusion 55
7.1 Major Accomplishment 55
7.2 Future Enhancement 56
